Gema Barrios
Movement Company,
LLC 221 Main St. # 524
Seal Beach, CA 90740

Dear Gema Barrios,

On behalf of Honda North American Indirect Procurement, I am pleased to present Movement Company, LLC with the 2021 Honda Indirect Supplier Award for Challenging Spirit. This award signifies your commitment to Honda's 1Core Value of a Challenging Spirit by going "above-and-beyond" Honda expectations to ensure the success .and/or, delivery of a service, product, or project. Congratulations!

Over the past year Movement Company has faced many challenges. COVID-19 closed the Torrance Fitness Center; all staff were to be laid off. At the same time, Honda was going through a mask mandate and a temperature screening requirement. Movement staff were reassigned from Torrance Fitness Center to staff the temperature screening locations on the Torrance campus to support providing a healthy and safe working environment. The Torrance campus was a unique situation due to the many entry points and without the additional support from Movement AHM's security team would have needed to hire and train additional staff in a very short amount of time. Movement's ability to pivot quickly helped ensure all proper health screening requirements were met at the Torrance location so business was not impacted.

The past year has been challenging but your perseverance and commitment to Honda represents the important partnership, and mutual success we can achieve by working together. The Honda Team thanks you for your focus, dedication, and partnership, and we congratulate you for this outstanding achievement.

Sincerely,

Jessica Rogers
